

Chastity's LaTeX Book

Chastity White Rose

September 20, 2026

This short example book was written in LaTeX by Chastity to remind herself why she was learning LaTeX. It was converted to PDF by the pdflatex program running on Debian Linux.

Chapter 1

What is LaTeX?

LaTeX is a language for describing documents that you might want to print or just view on a computer.

It is similar to what HTML is for web pages because you have tags representing different kinds of elements.
